Alcohol degree:	19 %
Serve at:	16°C - 18°C
Serve with:	before and after dinner
Description:	This liqueur wine, named after the grape Malmsey is created by adding grape alcohol to stop the fermentation so that the wine contains a certain amount of sugar. This wine underwent a heating process in estufas. Malmsey is extraordinary, rich and delicious wine with a delicate fragrance. With age, he is richer and mind develops the character of a fortified wine. The vines of the Malmsey grapes require a dry soil and intense heat. The grapes are harvested only when they are sun dried and somewhat resemble raisins. Malmsey is primarily a dessert wine but can also be drunk before meals.
